NOTHING YOU CAN'T FIX

Whether it is about lubricating chains, assembling bike parts or repairing a flat tyre on the road, the sprays of MOTIP are up to every problem. For decades MOTIP has been known for its excellent sprays and the Bike Care Range has been developed from this solid foundation.

Our technical specialists have worked closely with bicycle manufacturers and cycling clubs and carefully tested every product to ensure they are of the highest quality. With 22 solutions for the maintenance and repair of every type of bike, there is really nothing you can't fix.

Using MOTIP Bike Care products prevents equipment problems, helps to avoid high repair costs and keeps the bike in a new condition. The range is split into Cleaning, Lubrication, Protection, Assembly and Tools.

MOTIP is one of the top brands of the European Aerosols Group. European Aerosols is the market leader in the development of aerosol solutions for paints, varnishes and technical products and is mainly active in the automotive, DIY and industrial segments.

BENEFITS OF THE BIKE CARE RANGE

- Comprehensive and complete suite of products that caters for every type of bike, so that every end-user can be served.
- For enhanced visibility and active promotion in store, point of sale displays, a consumer leaflet and instruction video are available.
- Our R&D department has developed the products themselves and tested them carefully, so we have all the knowledge and experience to optimize the Bike Care range.

NOTHING YOU CAN'T FIX

BIKE CARE CATEGORIES

CLEANING

During an intensive cycle ride, your bike attracts a lot of dirt such as sand or salt. Because of the dirt, parts of your bike wear out faster or get stuck. You can counteract this by cleaning your bike with MOTIP cleaning sprays after every intensive ride.

PROTECTION

Your bike can be used a lot in various weather conditions. Protect your bike against grease, dirt and moisture to prevent damage.

LUBRICATION

Your bike chain and other parts are always in motion. It is essential to lubricate these parts properly. During the cleaning of your bike, you remove the lubricant in addition to the dirt. It is important that you apply this again after washing, so that your bike is in top condition again.

TOOLS

To make the assembly of bike parts as easy as possible for you, the use of mounting grease is indispensable. Our assembly greases ensure smooth assembly and prevent the seizing and blocking of [corroded] parts.

ASSEMBLY

Sometimes you can use a little extra help while you are on the road. MOTIP Tools have been developed to remedy annoying situations such as a flat tyre. This allows you to carry out emergency repairs quickly and easily.

CLEANING

CLEANING

CHAIN CLEANER GEL

Clean chains and sprockets of your bike easily with MOTIP Chain Cleaner Gel. The gel structure ensures an optimal cleaning effect. Chain Cleaner Gel is a fast-dissolving cleaner for chains and sprockets. Chain Cleaner Gel has an optimal cleaning effect due to its unique formulation (a combination of the gel structure, the emulsifying properties and low evaporation rate). It removes grease and dirt with ease. Chain Cleaner Gel has a powerful jet-spray and a 360° valve.

Description	Contents	Part No.	EAN-Code	PU
Chain Cleaner Gel	400 ML	000275	8711347204786	6

BRAKE CLEANER

Brake Cleaner is a cleaner specifically developed for removing grease and dirt from disc brakes. Brake Cleaner has a powerful jet-spray, leaves no residue, is non-conductive and non-corrosive.

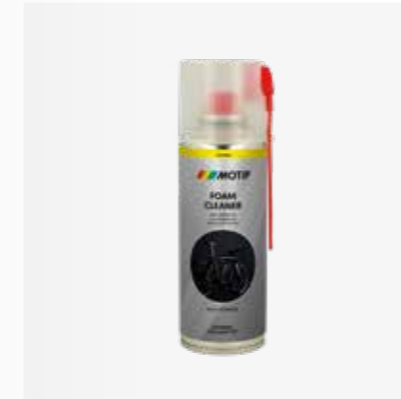

Description	Contents	Part No.	EAN-Code	PU
Brake Cleaner	200 ML	000291	8711347232475	6

E-BIKE CONTACT CLEANER

Clean the electrical contact points on your electric bike easily with MOTIP Contact Cleaner. E-Bike Contact Cleaner is a fast-dissolving cleaner for electrical switches. E-Bike Contact Cleaner is non-conductive, non-corrosive and leaves no residue. Before use, it is important to switch off the electrical contacts and only switch the contact on again when the cleaner has completely evaporated.

Description	Contents	Part No.	EAN-Code	PU
E-Bike Contact Cleaner	200 ML	000286	8711347232253	6

FOAM CLEANER

Clean your bike with the universal MOTIP Foam Cleaner. It contains high dissolving properties for light contaminants. Foam cleaner is user-friendly and very effective and has a subtle scent.

Description	Contents	Part No.	EAN-Code	PU
Foam Cleaner	400 ML	000290	8711347232451	6

BIO CLEANER

Clean your bike easily with MOTIP Bio Cleaner. Bio Cleaner is biodegradable cleaner that can be applied to all parts of the bike. The user-friendly trigger has a powerful jet-spray, fast-dissolving properties and can be used on all bike surfaces including carbon fibre, titanium, chrome, steel, aluminium, rubber and plastic.

Description	Contents	Part No.	EAN-Code	PU
Bio Cleaner	500 ML	000281	8711347209156	6

PROTECTION

A mountain biker wearing a black helmet with red accents, a black t-shirt, and maroon pants is riding a full-suspension mountain bike on a dirt trail in a forest. The rider is leaning forward, and the bike is kicking up a cloud of dust. The background is filled with tall, thin trees and dappled sunlight.

PROTECTION

SHIELD

Prevent rusted spots on your bike with MOTIP Shield. Use the spray on your bike's fasteners and prevent corrosion. Shield is a spray to treat fasteners and to prevent corrosion. Shield has excellent adhesion. Shield applies a thin protective layer to the bike, providing effective resistance to chemicals and weather conditions.

Description	Contents	Part No.	EAN-Code	PU
Shield	400 ML	000277	8711347209118	6

SHINE & PROTECT

Clean and protect the carbon frame, fork and crank of your bike with MOTIP Shine & Protect. Shine & Protect is a maintenance product that cleans, protects and gives a lasting gloss finish. Shine & Protect is suitable for treating all lacquered and carbon bike parts. Shine & Protect reduces the adhesion of dirt and protects against all weather conditions.

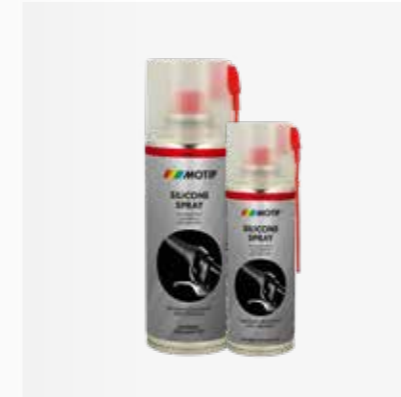

Description	Contents	Part No.	EAN-Code	PU
Shine & Protect	400 ML	000270	8711347204724	6

E-BIKE ELECTRO PROTECT

Protect the battery and other electrical systems on your electric bike with MOTIP Electro Protect. E-Bike Electro Protect is a protective spray that shields electrical systems from moisture. E-Bike Electro Protect is both moisture- and water-repellent. E-Bike Electro Protect has a very good adhesion and anti-corrosion effect.

Description	Contents	Part No.	EAN-Code	PU
E-Bike Electro Protect	200 ML	000287	8711347232277	6

SILICONE SPRAY

Protect the mudguard, frame and other plastic or lacquered parts of your bike with MOTIP Silicone Spray for bikes. Silicone Spray prevents squeaking and creaking of plastic parts. Silicone Spray is water-repellent, weather-resistant and has good mechanical and thermal stability.

Description	Contents	Part No.	EAN-Code	PU
Silicone Spray	400 ML	000283	8711347209170	6
Silicone Spray	200 ML	000294	8711347232376	6

A close-up photograph of a bicycle's rear cassette and chain mechanism. The image shows the silver metal housing of the rear derailleur, the chain, and the cassette with its various gears. The background is blurred, showing a person's legs and a red object, possibly a water bottle, on a bicycle. The overall scene is outdoors with natural lighting.

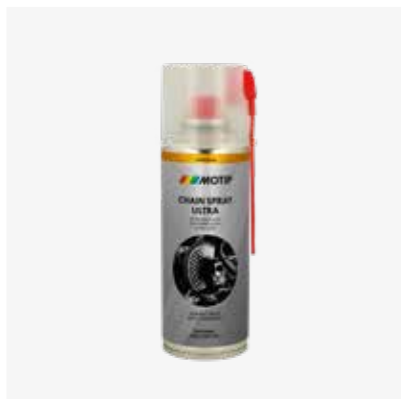

LUBRICATION

CHAIN SPRAY RACE

Lubricate the chain and sprockets of your race, mountain or cross bike with MOTIP Chain Spray Race. The lubricant maintains the lubricating effect of your bike's chain and gear wheels. Chain Spray Race is a (dry) lubricant with ceramic particles to treat chains and sprockets of bikes. Chain Spray Race is most suitable in dry conditions and has the advantage that it repels dirt. Chain Spray Race is water-repellent, prevents wear and is resistant to all weather conditions. In wet weather conditions, we recommend Chain Spray MTB.

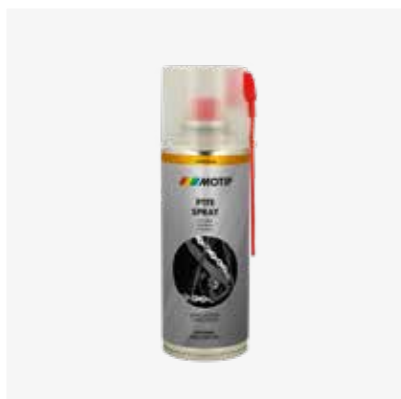

Description	Contents	Part No.	EAN-Code	PU
Chain Spray Race	400 ML	000271	8711347204748	6
Chain Spray Race	200 ML	000292	8711347232338	6

CHAIN SPRAY MTB

Lubricate the chain and sprockets of your bike, touring bike or electric bike with MOTIP Chain Spray MTB. The lubricant is extremely suitable in heavy weather conditions like rain. Chain Spray MTB is a (wet) lubricant with ceramic particles to treat chains and sprockets of bikes. Chain Spray MTB has a high-viscosity and therefore bonds better when used in wet conditions. Chain Spray MTB is water repellent, prevents wear and is resistant to all weather conditions. In dry weather conditions, we recommend Chain Spray Race.

Description	Contents	Part No.	EAN-Code	PU
Chain Spray MTB	400 ML	000272	8711347204762	6

PTFE SPRAY

Lubricate all mechanical metal parts on your bike with MOTIP PTFE Spray. The spray maintains the lubricating effect of your bike chain, brake and gear levers and wheels. PTFE spray has excellent mechanical and thermal stability and prevents wear.

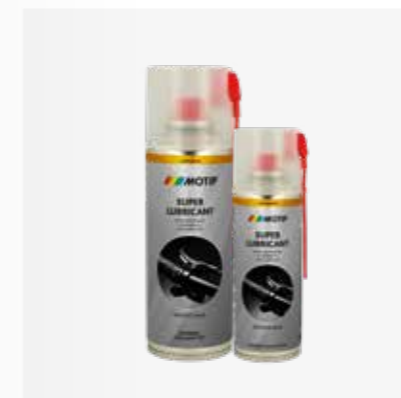

Description	Contents	Part No.	EAN-Code	PU
PTFE Spray	400 ML	000284	8711347209194	6
PTFE Spray	200 ML	000295	8711347232390	6

BEARING GREASE

Prevent wear and sticking of bearings on your bike with MOTIP Bearing Grease. Bearing Grease is a lithium-based grease for all bearings, in a special dispenser for user-friendly and economical dosage. Bearing Grease has a high-viscosity and prevents wear and clamping. Bearing Grease has an excellent anti-corrosion effect and is water-repellent.

Description	Contents	Part No.	EAN-Code	PU
Bearing Grease	200 ML	000276	8711347212682	6

SUPER LUBRICANT

Lubricate moving parts of your bike such as brake and gear levers and the lock with MOTIP Super Lubricant. The spray ensures a well-maintained bike. Super Lubricant is a low-viscosity lubricant to treat all non-bearing, moving parts of the bike, with the exception of chains. Super Lubricant is extremely suitable for all carbon, aluminium, steel and plastic parts, both treated and untreated. Super Lubricant has an excellent lubricating effect, prevents wear and repels dirt.

Description	Contents	Part No.	EAN-Code	PU
Super Lubricant	400 ML	000273	8711347204809	6
Super Lubricant	200 ML	000293	8711347232352	6

CHAIN OIL MTB

Lubricate the chain and sprockets of your bike, touring bike or electric bike with MOTIP Chain Oil MTB. The lubricant is extremely suitable in heavy weather conditions such as rain. Chain Oil MTB has a high viscosity and therefore bonds better when used in wet conditions. Chain Oil MTB is water repellent, prevents wear and is resistant to all weather conditions. In dry weather conditions, we recommend Chain Oil Race.

Description	Contents	Part No.	EAN-Code	PU
Chain Oil MTB	100 ML	000279	8711347209071	6

CHAIN OIL RACE

Lubricate the chain and sprockets of your racing bike, mountain bike or cross-country bike with MOTIP Chain Oil Race. The lubricant preserves the lubricating effect of your bike chain and sprockets. Chain Oil Race is most suitable in dry conditions and has the advantage that it repels dirt. Chain Oil Race is water repellent, prevents wear and is resistant to all weather conditions. In wet weather conditions we recommend Chain Oil MTB.

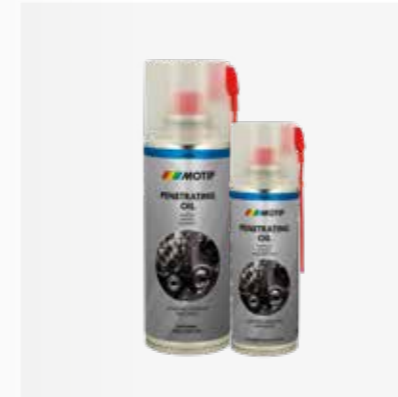

Description	Contents	Part No.	EAN-Code	PU
Chain Oil Race	100 ML	000280	8711347209095	6

ASSEMBLY

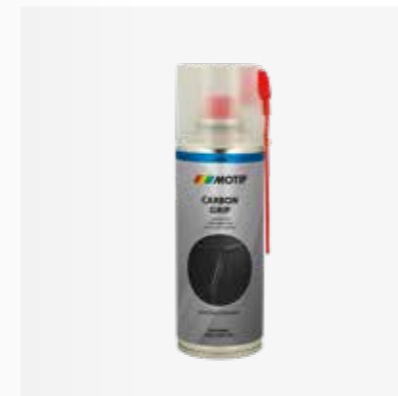

PENETRATING OIL

Loosen rusted parts such as locks, gears and chains of the bike easily with MOTIP Penetrating Oil. Penetrating Oil has good penetrating properties and contains graphite and MoS₂. Penetrating Oil is moisture-repellent and rust preventive.

Description	Contents	Part No.	EAN-Code	PU
Penetrating Oil	400 ML	000288	8711347232291	6
Penetrating Oil	200 ML	000289	8711347232314	6

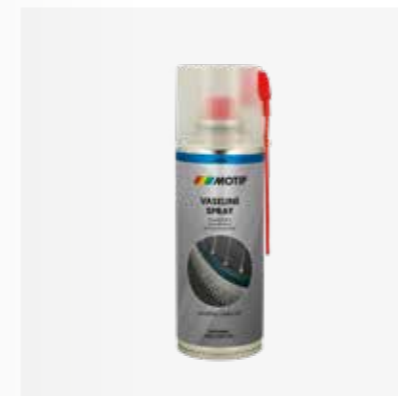

CARBON GRIP

Make the assembly of carbon parts of your bike such as saddles and hubs easier with MOTIP Carbon Grip. Thanks to the unique combination of lithium grease and quartz particles, Carbon Grip has a good fixing effect, which makes it easier to assemble carbon parts.

Description	Contents	Part No.	EAN-Code	PU
Carbon Grip	400 ML	000274	8711347204823	6

VASELINE SPRAY

Protect your bike's rims and screw connections with MOTIP Vaseline Spray. Vaseline Spray is a universal lubricant and preservative spray with excellent adhesion. Vaseline Spray prevents clamping and protects screw connections and rims against corrosion and wear.

Description	Contents	Part No.	EAN-Code	PU
Vaseline Spray	400 ML	000285	8711347209217	6

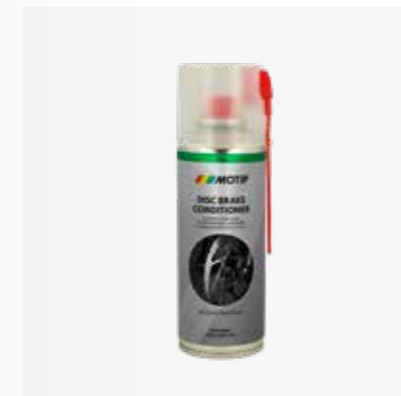

TOOLS

TYRE REPAIR

Use MOTIP Tyre Repair for emergency repairs to your flat bike tyre, without removing the tyre. Tyre Repair is a rubber-based spray. Tyre Repair is ideal for small leaks or punctures and can be used without removing the tyre.

Description	Contents	Part No.	EAN-Code	PU
Tyre Repair	75 ML	000297	8711347088102	6

DISC BRAKE CONDITIONER

Protect the disc brakes of your bike with MOTIP Disc Brake Conditioner. The spray prevents clamping and wear of the disc brakes on your bike and is resistant to chemicals, the weather, salt and weak acids and bases. Disc Brake Conditioner is a spray with high thermal stability to condition disc brakes. Disc Brake Conditioner ensures optimal braking capacity.

Description	Contents	Part No.	EAN-Code	PU
Disc Brake Conditioner	400 ML	000278	8711347209132	6
