You are always in control with our dry sanding system.

The Story of Perfection. Our Story.

Because of our Japanese roots, aiming for the highest quality is in our DNA. We pursue this at a product level and in our customer support. Our urge for perfection is embedded in the Japanese culture, where perfection is symbolized by a circle. Within living memory this so-called Ensō is being represented as an expression of perfection. Because the Enso is such an important and meaningful symbol with which Kovax can strongly identify, the circle is a recurring element in our design. In the Japanese writing system of Kanji Ensō also literally means 'circle of togetherness'. Meaning maintaining harmonious cooperations with relations.

This vision is fully in line with the mental legacy of Kovax. We create perfection in our ultra-modern factories, where we combine the latest (production) technologies with our 90 years of experience with the development and production of sanding solutions. The result is a complete

sanding line that enables dry sanding until the finest grit. Thanks to the impressing and extremely uniform end result you can truly differentiate yourself and, at the same time, seriously reduce your labour time. But we go even further! Our need for perfection also means we think ahead: how can we make tomorrow's work easier and more efficient for you. Or which sanding solution can we offer you for new fields of application, new materials etc. We therefore introduce regularly innovative products that are completely new world-wide.

Above all, however, we are seeking perfection by creating harmonious relationships with our customers. Personal contact, loyalty and short lines of communication. Be in touch with each other.

That is the force of Kovax. That is our Story of Perfection!

The Kovax Family

One of the basic principles within the Japanese culture is loyalty. This was already applied by the Japanese Samurai warriors. Kovax also is a strong supporter: in all our relations we strive for a long term cooperation, based on mutual respect and trust.

Meanwhile our partner network consists of partners from 45 countries. Together we cooperate, share knowledge and our partners mutually respect each other's markets. In doing so we create new business opportunities, enlarge each other's success and realise continuity. A stable future, particularly in changing market conditions.

Together we stand strong and can we face any challenge. We are the Kovax family!

TOP PRODUCTS

MAXCUT

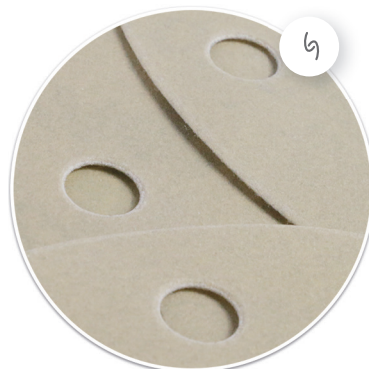

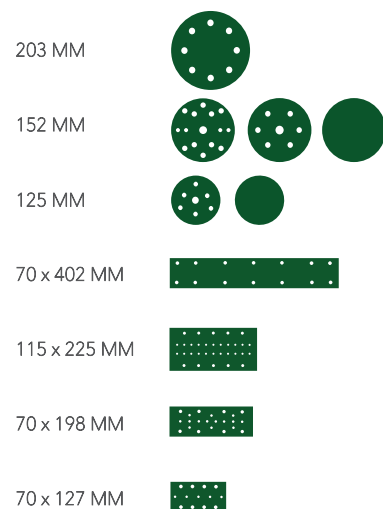

P60 - P180

THE NUMBER 1 SOLUTION WHEN
SANDING HARD PUTTY AND METAL.

ADVANTAGES MAXCUT

The Maxcut products have specially hardened Aluminium Oxide grains, which score a 9.8 on Mohs scale of mineral hardness. Compared to the hardest mineral, which is industrially produced diamond with a score of 10, this is nearly the hardest existing mineral and thus perfectly suited for extremely hard sanding work. Thanks to its open structure clogging will be prevented.

TRI-PRO

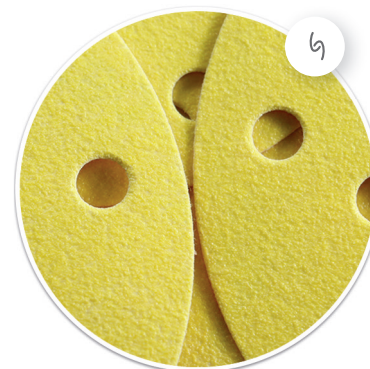

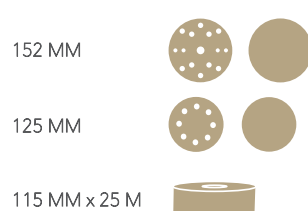

P40 - P600

PRICE-PERFORMANCE WINNER FOR
THE WHOLE SANDING PROCESS,
FROM SANDING BARE METAL TO
SANDING PRIMER.

ADVANTAGES TRI-PRO

Tri-Pro can be used for all sanding steps, from sanding bare metal to sanding primer. To prevent clogging, Tri-Pro has been subjected to an anti-clogging treatment.

PREMIUM

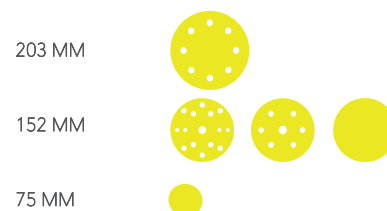

P60 - P600

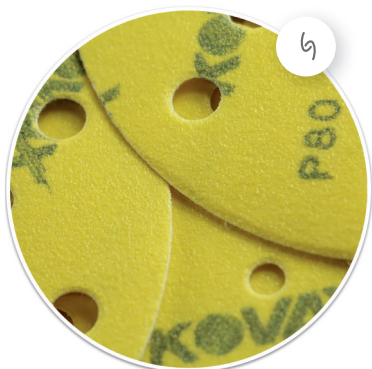

PREMIUM IS USED FOR THE
COMPLETE SANDING PROCESS,
FROM SANDING BARE METAL TO
SANDING PRIMER.

ADVANTAGES PREMIUM

The aggressiveness of Premium products results in a high cutting power. At the same time the uniform sanding scratches prevent intensive refinishing.

MAXFILM

P80 - P600

MAXFILM STANDS FOR MAXIMUM DURABILITY FOR ALL YOUR SANDING WORK, FROM SANDING BARE METAL TO SANDING PRIMER.

ADVANTAGES MAXFILM

The film backing of Maxfilm allows a more direct contact with the sanding surface and prevents the grains to drop into the backing. In combination with its double anti-clogging coating this results in a significantly longer lifetime. The printed P-value on top of the disc ensures maximum ease of use.

SUPER ASSILEX

K240 - K1500

THE UNIQUE WAY OF DRY SANDING, UNIFORMITY AND FLEXIBILITY THAT AMAZE.

ADVANTAGES SUPER ASSILEX

The innovative latex backing and the unique grain structure result in extremely uniform and shallow scratches. The products of Super Assilex are supporting you during your daily sanding jobs due to Super Assilex'outstanding cutting performance and speed. This results in more efficiency. Super Assilex prevents potential problems in the rest of the sanding process.

MAGIC DISC

320 - 500

SPECIALLY DEVELOPED SANDING DISC FOR E-COAT AND VERY HARD, MATT CLEAR COAT SANDING.

ADVANTAGES MAGIC DISC

The Magic Disc with its film backing, the new developed diamond grain and the new generation 2.0 anti-clogging coating, has an unbelievable long lifetime on hard coatings. High aggressiveness comes together with very uniform scratches.

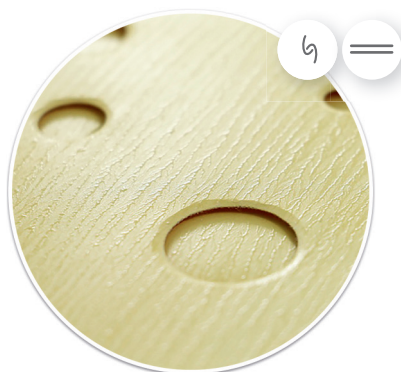

152 MM

USE **SPY SPRAY** OR **DRY GUIDE COAT** WHEN SANDING PUTTY AND PRIMER.

FOR THE **BEST & FASTEST RESULTS**, USE 5 MM ORBIT FOR ALL OUR PRODUCTS.

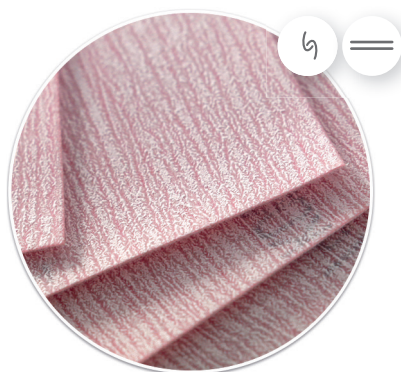

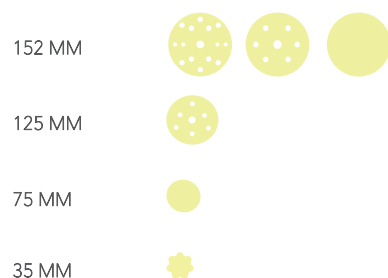

YELLOW FILM P800 - P2000

THE NUMBER 1 SOLUTION FOR BLENDING ZONES, WITH A GUARANTEED PERFECTLY, NON-VISIBLE TRANSITION FROM OLD TO NEW CLEAR COAT.

ADVANTAGES YELLOW FILM

The film backing in combination with an anti-burning coating allows a cool sanding process. Consequently, burning spots can be brought to a minimum and the risk of deep scratches is reduced significantly. Yellow Film is ideal for top coat sanding, removal of imperfections and removal of orange peel structure. The main markets of Yellow Film are the automotive sector and the wood industry.

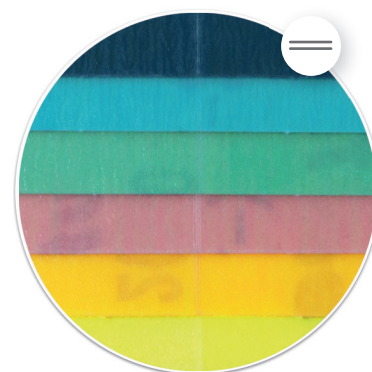

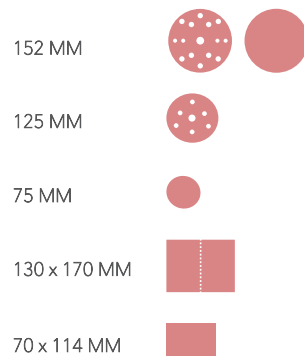

TOLEX K1500

TOLEX IS A POLISH TIME REDUCING CHAMPION WITH A VERY FINE SANDING SCRATCH.

ADVANTAGES TOLEX

The special combination of micro grains used for the production of Tolex and its innovative latex backing, results in a sanding scratch of less than 1 micron. A scratch this fine, significantly reduces polishing time. Thanks to the dry sanding process, the risk of sanding through the clear coat is brought to a minimum.

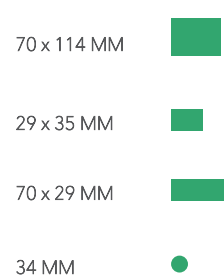

TOLECUT K800 - K3000

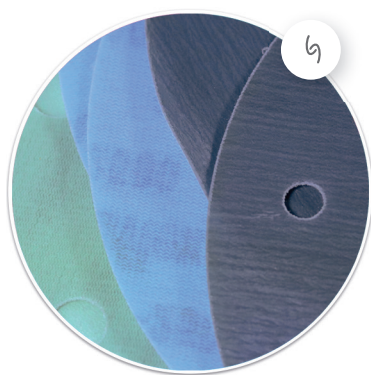

THE WORLD CHAMPION WHEN IT COMES TO DRY IMPERFECTION REMOVAL.

ADVANTAGES TOLECUT

Tolecut is a dry sanding system. Without the use of water it is always possible to see how far the imperfection has been removed. Because of the constant visible result, the risk to sand through the topcoat is reduced to a minimum. Tolecut is unique in its cutting power and due to its flexibility it is also suitable for concave and convex areas. The ease of use makes it a must have for every dent professional.

BUFLEX DRY

K2000 - K3000

*THE FINEST ABRASIVE FOR
MAXIMUM POLISH TIME
REDUCTION.*

ADVANTAGES BUFLEX DRY

The ultra flexible, innovative latex backing with a unique grain structure ensures extremely uniform scratches. The especially developed female-female velcro ensures process safety and prevents scratches caused by hard velcro. Buflex Dry retains the coating structure.
